BUILDING AN ALL ATLANTIC OCEAN COMMUNITY Implementing the Belém Statement

AANChOR is a Coordination & Support Action project aimed to support the implementation of the Belém Statement. It has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 818395.

Creating an Atlantic Ocean Community by Implementing the Galway and Belém Statements

JOINT PILOT ACTIONS

ALL-ATLANTIC JOINT PILOT ACTIONS

Following a year-long collaborative process among more than 70 stakeholders at the Atlantic level, the All-Atlantic Ocean Research Alliance Multi-Stakeholder Platform, divided into 5 sub-multistakeholders platforms, identified more than 1000 initiatives towards strengthening marine research and innovation collaboration at the Atlantic level, 56 gaps and 79 needs/recommendations to achieve the All-Atlantic Ocean Research Alliance ambition, guided by a total of 20 Strategic Objectives, 20 Operational Objectives, and 10 Key Performance Indicators.

Based on these findings and on the idea of collaboration, alignment, and use of existing resources, they have developed six ambitious and long-term collaborative Joint Pilot Actions:

- <u>All-Atlantic Training Platform (AA-TP)</u>
- All-Atlantic Aquaculture Technology and Innovation Platform (AA-ATIP)
- <u>All-Atlantic Marine Biotechnology Initiative (AA-BIOTECMAR)</u>
- <u>All-Atlantic Data Enterprise 2030 (AA-DATA2030)</u>
- <u>All-Atlantic Blue Schools Network (AA-BSN)</u>
- <u>All-Atlantic Marine Research Infrastructure Network (AA-MARINET)</u>

This report is developed by the **All-Atlantic Marine Research Infrastructure Network (AA-MARINET)** Joint Pilot Action, that provides tools to support a transatlantic network of Research Infrastructures initiatives, promoting Trans-National Access and other methods for sharing infrastructures in the Atlantic area. It will work as a platform where stakeholders can share information about planned observation activities and available spare capacities, creating a forum where thematic networking and synergies will bring a better articulation of infrastructure-related activities in the Atlantic basin, improving the support of multidisciplinary science to address global societal challenges.

This report is a deliverable in scope of AA-MARINET, Polar line of activity (NMPRI), task 6.3.1 "Setting up polar group with representatives from polar programmes and managers, from the Arctic to the Antarctic" that aimed at identifying the future NMPRI network members and its long-term objectives. The organisation of the Kick off workshop "Networking from pole to pole: facilitating access for research and infrastructure" contributed to achieve the task aim.

term objectives for the future of polar research infrastructure sharing.

Task 6.3.1 is the first out of two tasks in AA-MARINET's work on polar infrastructures sharing. It mainly aimed at building a community of stakeholders in order to define priorities to facilitate polar research infrastructure access and sharing. To achieve this goal, a virtual workshop was held as a side event to the <u>All-Atlantic2021 Ministerial and Stakeholder Conference</u> that took place in 2021 in Ponta Delgada, Azores, gathering experts and stakeholders in order to discuss these topics, share best practices and define long-

SUMMARY

Creating an Atlantic Ocean Community by Implementing the Galway and Belém Statements

1. Task objectives

Polar Research is one of the six priority thematic areas identified by the Belém Statement. AA-MARINET (All-Atlantic Marine Research Infrastructure Network) aims at fostering the convergence of research and innovation initiatives and promoting research infrastructure sharing, including in the area of polar research. A wide range of polar research facilities and platforms (year-round and seasonal stations, seasonal laboratories, camps and shelters, and research vessels) could benefit from stronger sharing mechanisms. Access to the polar regions is very difficult and expensive. Thus, sharing of research infrastructures is one important mechanism to improve the data collecting in the polar regions. The topic of access to the infrastructures was therefore selected to be the focus of the first stage of the AA-MARINET discussions on polar research and innovation infrastructure sharing. It is a prerequisite to develop further initiatives and offers valuable opportunities of strengthening long-term collaboration.

Task 6.3.1, "Setting up polar group with representatives from polar programmes and managers, from the Arctic to the Antarctic", is the first step towards the long-term objectives, which are:

- Establishing sharing-mechanisms of polar research facilities;
- Creating the conditions for connection between Arctic and Antarctic research programs;
- Identifying the barriers limiting or preventing the access to polar facilities, as well as the necessary measures for increasing the access.

The task deliverable was D6.3.1. "List of network members and long-term objectives".

Creating an Atlantic Ocean Community by Implementing the Galway and Belém Statements

2. Description of the work

The creation of the network started with the kick off workshop "<u>Networking from pole to pole: facilitating</u> <u>access for research and infrastructure</u>" on 2nd June 2021. This virtual workshop aimed at creating a favourable environment to establish a coalition of stakeholders that share a common goal in line with the JPA activity. The workshop was held as a side event to the <u>All-Atlantic2021 Ministerial and stakeholder</u> <u>Conference</u>. It gathered representatives of Arctic and Antarctic programmes, polar infrastructures managers and operators to focus on barriers limiting or preventing the access to the polar facilities and the necessary measures for increasing the access to polar stations. The participants shared best practices on cross-border access to infrastructures and sharing of logistics. This workshop also aimed at defining long-term objectives for polar infrastructure sharing.

Creating an Atlantic Ocean Community by Implementing the Galway and Belém Statements

3. Outcomes

The main outcome of this online workshop was the creation of a network of stakeholders and experts on polar research. The workshop was organised around presentations by stakeholders from various countries, representing both hemispheres and both sides of the Atlantic (Brazil, Canada, Europe, Germany, Portugal, South Africa, Spain and Sweden – see Agenda in Annex I; Workshop presentations and record can be found here: <u>https://www.aa-mari.net/polar-reasearch-events/networking-from-pole-to-pole-facilitating-access-for-research-and-infrastructures/</u>). This allowed discussing Arctic and Antarctic areas and examples of cross-border access to infrastructures and sharing of logistics.

The workshop permitted to draw a list of network members in order to create a favourable environment to establish a coalition of stakeholders sharing the same goal. The members agreed on long-term objectives for polar research infrastructure sharing mechanisms:

- Synchronize the polar research funding calendars;
- Link Arctic-Antarctic joint research priorities and cross-cutting activities (e.g., capacity building);
- Exploit existing mechanisms for sharing facilities, such as the Trans-National Access (TNA).

The partners of AA-MARINET submitted a pledge under the All-Atlantic Pledging Campaign: <u>"Facilitate cross</u> border access to polar infrastructures". This pledge shows the commitment of all institutions involved in the implementation of the JPA.

Finally, the participants of this workshop also agreed on the need to follow-up the discussions on common scientific priorities to have a solid base for future cooperation and possible sharing of infrastructures, which was the topic of a second workshop organized in July 2022 as a side event to the <u>5th All-Atlantic Ocean</u> <u>Research Alliance Forum</u> (under task 6.3.2).

List of participants and speakers to the "Networking from pole to pole: facilitating access for research and infrastructure" Workshop:

Speakers	Institution	Country
Renuka Badhe	European Polar Board	The Netherlands
Nicole Biebow	AWI	Germany
Jefferson Simoes	CGOA - MCTI	Brazil
Marcello Vichi	SAPRI	South Africa
Liisa Peramaki	Directorate for fisheries and ocean	Canada
Gonçalo Vieira	IGOT – University of Lisbon	Portugal
Veronica Willmott	AWI	Germany
Margareta Johansson	Lund University	Sweden
Antonio Quesada	Spanish Polar Committee	Spain

4. Annex I – Workshop agenda

Networking from pole to pole: facilitating access for research and infrastructures

Side event to the All Atlantic 2021 conference

Date and time	2nd June 2021
Registration	https://us02web.zoom.us/meeting/register/tZYvfuqspzwiGdbU1YWtuBvjpSjEI6M5uSid
Time:	14:00 -16:00 UTC
1400	Welcome by the organisers (R. Badhe (EPB) and N. Biebow (EU-PolarNet 2))
1405	Introduction to the Polar Research Programmes of the All-Atlantic partners: (10 min presentations) <i>Chair: N. Biebow (EU-PolarNet 2)</i> • Brazil: Jefferson Simões • South Africa: TBC • Canada: Liisa Peramaki, Alain Dupuis • USA: TBC • Europe: Renuka Badhe
1455-1500	Break (5 minutes)
1500	Best practise examples for cross-border access to infrastructures and sharing of logistics (10 min presentations) Chair: R. Badhe (EPB) Setting the scene: Recommendations from the EU-PolarNet Infrastructure White Paper: G. Vieira (IGOT, Portugal) Arctic Examples: • Cross-border access to Arctic icebreakers – ARICE: V. Willmott (AWI, Germany) • Cross-border access to Arctic research stations – INTERACT: M. Johansson (Lund University, Sweden) Antarctic Examples: • COMNAP Efficiency Task Force: Antarctic Peninsula: A. Quesada (MICINN, Spain)
1540	Group Discussion on challenges, best practices, and next steps to facilitate an All-Atlantic cooperation in Polar research and sharing of infrastructures and logistic How should we move beyond the identified challenges to facilitate sharing of infrastructure and logistics in the polar regions?
