Mission & Vision

AIR Centre is an international networked organization, oriented to foster sustainable development in the Atlantic region. It mainly addresses the ocean-climate nexus, integrating several disciplines and promoting multilateral cooperation to address national and regional priorities and global challenges such as those defined by the UN 2030 Agenda, the Paris Agreement, the UN Decade of Ocean Science, the UN Decade on Ecosystem Restoration, and the All-Atlantic Ocean Atlantic Research Alliance.

Core Activities

- Promote multilateral scientific collaboration in the Atlantic basin
- Engage and orchestrate large networks of stakeholders towards common goals
- Foster a dynamic Blue Economy innovation ecosystem
- Contribute to the development and use of ocean observations

Contribution to the All-Atlantic Ocean Research and Innovation Alliance

Relevant thematic area

Relevant resources for collaborative research and innovation

- Access to research organizations and infrastructures in the Atlantic basin
- Development of diverse stakeholder engagement tools and methods
- Active dissemination and communication channels
- Regular technology transfer and capacity building activities
