

Dr Sheveenah Sunnasseesee Taukoor

Nansen-Tutu Centre, Dept of Oceanography, UCT

171 days at sea (8 expeditions)

Designed 4 new modules at University of Cape Town

Part time lecturer at UCT/Rhodes uni (GIS, Physical oceanography, Hycom modelling)

Student of Seamester 2016

Lecturer for 5 Seamester cruises

How Seamester shaped my career

- Exposure to instruments and operations at sea on a research vessel
- Meet other collaborators
- Experience with teaching

What I have learnt from teaching on a ship

- Make a backup plan with no internet (no data from ctd)
- More time spent with students, often personal help for their thesis
- Rely on free software

My views on being part of the ECOPS

- Funding to join/teach on other cruises
- Annual meetup in person
- Potential future collaborations
